Amendments to the Specification

Please add the following new paragraph after line 2 on page 14:

FIG. 10 schematically shows an alternative embodiment of the invention, wherein the clamping surface and the radially projecting means on the outer surface of the set screw include knurled surfaces.

Please add the following new paragraph after between lines 20 and 21 on page 17:

Knurled clamping surface 30 and outer gripping surface 1010 are schematically shown in FIG. 10.
